A TOTAL PROGRAM TO... HELP YOUR EMPLOYEES MASTER STRESS

THE STRESS MASTERY PROGRAM

STRESS RISK ASSESSMENT

The first step in learning to master stress is to identify the behaviors and attitudes that need changing. The **Stress Mastery Questionnaire (SMQ)** does this by providing valid and useful information on 11 unique stress risk scales.

STRESS REPORTS

Next, after completing the SMQ, your employees will receive immediate feedback in the form of a **Stress Profile** that shows how they did on the SMQ. In addition, a Detailed **Stress Report** is provided to each employee

STRESS MASTERY GUIDE

Each employee receives a copy of the 48 page **Stressmastery Guide: A Road Mapy to Resilience**. The Guide provides detailed information about What to Know and Do about high levels of stress. The Guide can be used alone, or as part of a stress training or coaching program.

PARTICIPANT WORKBOOK

Employees receives a copy of the **Participant Workbook**; a way to record important concepts and ideas being presented or discussed. Each scale's questions are shown with a place to write in reflections on the meaning and what one might want to do to build stress resilience.

WEBINARS

To enhance the learning process, each employee may participate in the **Mastering Stress Webinar**. The Webinar takes one through the SMQ, Profile, Report and Guide. The result is a better understanding of one's stress response and what to do about it.

TRAINING WORKSHOPS

Employees may participate in a workshop on **How to Master Stress**. Conducted by Stressmaster professionals, the workshop builds on the results of the SMQ and uses the Guide and other training approaches to teach ways to reduce stress and build stress mastery.

STRESS COACHING

Participants are assigned a Stressmaster Coach who will follow up by phone to support progress. Our Stressmaster Coaches are experienced in helping people make the necessary cognitive, attitudinal and behavioral changes that can insure long term success.

ONGOING MOTIVATION

Keeping employees on track to maintain their stress mastery skills is accomplished through "motivational" messages commuicaetd through weekly motivational emails, stress mastery screen savers, optional stress mastery pocket & desk guide and posters.
